"GolPhin is a company that is doing a great job in helping to grow the game."

Get kids in love with the game at a young age, and you will have golfers for life . Giving young children the ability to experience what the game is all about, have success and fun at the same time will develop the game and even throw up the odd champion!"

David Leadbetter

Golphin's holistic approach to kids golf is what I love about them. I bought the GFK clubs for my bonus daughter and they are great. Their MyPathway2Golf system is the best I've seen so now I'm supporting their mission to inspire golf's next generation.

The Solheim Cup star who sunk the winning putt at Loch Lomond for the European Team went on to say " I haven't seen a programme that engages kids with golf the way this does. We really need to do things differently than we did in the past. As parents we are always looking for activities that will keep our kids active and healthy. GolPhin has kids health and wellbeing at the core of everything they do."

Carin Koch
GolPhin Ambassador
