

Learn how to improve the player performance in less than 10 minutes

Smart2Move and its Team is specialized in Biomechanics and ground reaction forces analysis. Based on scientific research and experience of training, coaching and analyzing the motion of the golf swing, this workshop will teach you how to use physics and technology tools for a better understanding of the golf swing. Our unique force plates instantly diagnose a player's maximum potential so they can achieve instant and long term performance increases.

Education **Program**

- **8.30**AM **9**AM Welcome of participants
 - **Theory Training**
 - Benefits of Technology in Golf
 - Biomechanics Basics for Golf
 - Facts & Data
- **10:30**AM Break
 - Theory Training
 - Force & Pressure
 - Capture, Measure & Screen
 - Improve player performance in less than 10 min.

- **12:30**рм **1:30**рм Lunch
- **1:30pm -5pm** Practice Training
 - Smart2Move Dual Force Plates presentation and set up
 - Participants screening & analysis
 - Use the GRF (ground reaction forces) to improve ball flight data in less than 10 min.
 - Debriefing & open questions
